Subject: Additional Reclamation Work Needed at Mine Site, Organa Mineral Products, Organa Claims, S/055/0013, Wayne County, Utah

Dear Mr. Jackson:

On May 2, 2012, representatives of the Bureau of Land Management and the Division of Oil, Gas and Mining inspected the Organa Claims mine site. Both agencies noticed that some reclamation work had been done, but additional work is still needed. Specifically the access road needs to be blocked off to prevent access; the current rock piles are insufficient. Also the cut slopes need to be graded to a 2 Horizontal to 1 Vertical slope.

The Division had previously required that reclamation be completed no later than May 1, 2012, and because it appears some work has been done, this deadline is being extended to June 30, 2012. Please contact the Division and/or the BLM if you want to have an onsite meeting to review reclamation.

Please contact me at 801-538-5261 or Wayne Western at 801-538-5263 if you have questions about this letter.

Sincerely,

Dr. PBBS

Paul B. Baker
